

Smart and affordable address validation for optimized parcel shipping

ADDRESSFACTORY DELIVERY saves you the cost of unnecessary recoding and other expenses in the logistics process. Resulting in fast delivery and satisfied customers. **And the best part? You get the checked and correct parcel addresses for less than one euro cent per shipment!**

What you get from ADDRESSFACTORY DELIVERY:

- ✓ **Real-time address check before shipping**, based on one of Germany's largest and most comprehensive address databases
- ✓ Checking and, if necessary, correction of street name, building number, postal code and town/city including **generation of routing code**
- ✓ Optional service: **Deliverability information down to the person level**, updated daily
- ✓ **Error-tolerant matching algorithms**, optimized for the postal service
- ✓ **Easy and fast implementation** with the REST interface

Broad range of benefits:

- **Lower costs** for shipping, returns and handling
- **Satisfied customers** and **good reviews** thanks to fast delivery
- **Lower risk** of misdeliveries
- **More reliable revenues** with address-checked parcels
- **Falling customer service costs** due to fewer complaints
